Get More of Both With RLS Press Fittings. *60% Faster Than Brazing!*

RLS press fittings are the fastest way to make reliable HVAC/R copper tube connections. Our patented double circular crimp gives you a permanent mechanical joint every time, in just 10 seconds. That means you can save time and increase profits on every job, plus have time to get more jobs done.

And because RLS fittings are flame free, they eliminate the additional costs and hazards of brazing – including hot work permits, fire spotters and more. To learn more about saving time and money with RLS fittings, check with your local distributor or visit rapidlockingsystem.com.

More RLS Advantages:

- 10-second press connections
- UL Listed to 700 psi for HVAC/R
- Huge time and cost savings
- No gas or brazing materials
- No hot work permits or fire watch
- No need to nitrogen purge
- 8 million+ installed since 2015
